Collaboration with Industries and Institutes

CITNC - Industry collaborations refer to the strategic partnerships established between academic institutions and industries to bridge the gap between theoretical knowledge and practical application. These collaborations aim to enhance the quality of education by aligning academic practices with current industry requirements, thereby preparing students to meet real-world challenges effectively.

One of the primary objectives of such collaborations is to provide students with hands-on experience through internships, industrial training, and live projects. By engaging with industry professionals, students gain exposure to modern tools, technologies, and workplace practices. Additionally, guest lectures, workshops, and seminars conducted by industry experts help in enriching the learning experience by bringing practical insights into the classroom.

Furthermore, joint research and development activities enable institutions and industries to work together on solving real-world problems, fostering innovation and knowledge creation.

These collaborations also extend to consultancy services and sponsored projects, where faculty members provide expert solutions to industry challenges, and industries, in turn, support institutions with funding, infrastructure, and advanced laboratory facilities.

Memorandums of Understanding (MoUs) formalize these partnerships and ensure sustained cooperation over time.

The following is the List of Mous established at CITNC:

SAMSUNG, APAS Energy Technology, DTC Infotech Private Limited, EduPrime Global Academy, Global Minds India, Greenbots Software India Private Limited, Innomatics Research Labs, LMN Global Education Private Limited, MakeMy Technology, Neuriq Private Limited, Thinkfinity labs Private Limited, Think soft information and technology, Unisys India Private Limited, Universal Welfare Blood Centre, Indian Institute of Ayurvedic Medicine and Research, Rajeshwari Institute of Technology, Proddatur, YSR District, Andhra Pradesh, KSCST, Infosys Limited, etc.,
