WHY CHOOSE
CAMBRIDGE INSTITUTE OF TECHNOLOGY NORTH CAMPUS?

"We believe in your ability to achieve great things. All that's needed is supple-menting your abilities with the right guidance, supportive infrastructure and access to world-class opportunities like in Cambridge Institute of Technology North Campus"

At Cambridge Institute of Technology - North Campus, we help you choose a career path that aligns with your interests, empower you with the necessary skills to create a highly desirable profile and provide a head start in your career with a globally recognised degree.

The college is located off the International Airport Road in Bangalore. Despite being well-connected, the campus offers a serene atmosphere away from the city's hustle and bustle, devoid of distractions, making it an ideal environment for learning. The colleges' vision is to impart quality education in engineering and technology while laying equal emphasis on instilling ethical and moral values in its students. Furthermore, the college provides a platform for students to pursue their passion and promotes sports in a big way.

The college has spacious labs and classrooms, furnished with state-of-the-art infrastructure to effectively deliver the coursework. Additionally, the college hosts a variety of national and international conferences, seminars, tech talks, subject matter expert interactions, and hands-on workshops for its students. Prominent educationists, celebrities, technocrats, and industry experts regularly visit the campus, sharing their wealth of experience and insights with the students.

The faculty members at Cambridge Institute of Technology North Campus collectively possess an average teaching experience of about 15 years, ensuring high-quality education. The highly industrious placements department ensure excellent placements. Cambridge Institute of technology North campus students have the opportunity to interview with more than 120 companies with 100% placements for all eligible students. Furthermore, the college offers in-house Product Training classes followed by sessions on coding platforms like Leetcode and HackerRank, significantly boosting students' prospects for International Job Offers.

If you are looking for a college to hone and enrich your skills and also achieve great heights of success, Cambridge Institute of Technology North Campus is the place to be.

Approved by AICTE | Affiliated to VTU | Recognized by Govt. of Karnataka
Approved by UGC | An ISO 9001:2015 Certified Institute

BACHELOR OF ENGINEERING (B.E.) COURSES

Cambridge Institute of Technology-North Campus caters to students with diverse goals and aspirations. Whether the goal is to land a dream Job, pursue Research or embark on an Entrepreneurial journey, you'll find ample support during your study that will help you SUCCEED.

COMPETITIVE ADVANTAGE

AT CAMBRIDGE INSTITUTE OF TECHNOLOGY NORTH CAMPUS

Choose your path, we'll ensure you SUCCEED.

- Computer Science and Engineering
- Computer Science and Engineering (Cyber Security)
- Computer Science and Engineering (AI & ML)
- Computer Science and Engineering (Data Science)
- Electronics and Communication Engineering
- Mechanical Engineering

SPECIALIZED BACHELOR OF ENGINEERING

PATH 1
JOB
Become an Industry Professional

PROGRAMS
Industry-Led Skill-Based Programs

GUIDANCE
Expert guidance and assistance from Talent Transformation Hub

PLACEMENT
Assured 100% placement guarantee with leading corporates for eligible candidates.

PATH 2
RESEARCH
Join the Research Community

WELL-FUNDED RESEARCH
Join the research community of your interest

RENOWNED RESEARCHERS
Work with top international technology researchers in the industry

PATENTS & PUBLICATIONS
Publish in leading scientific journals and file patents

PATH 3
ENTREPRENEURSHIP
Start your Own Venture

FUNDING & INFRASTRUCTURE
Get funding, workspace, infrastructure & administrative support for your venture

NETWORKING
Network with resident startups

MENTORSHIP
Learn from visiting industry mentors

INDUSTRY-EQUIPPED LAB SESSIONS

REALTIME INDUSTRY PROJECTS

YOU ARE A NATURAL COMPUTER SCIENCE ENGINEER IF YOU HAVE

Strong inclination for **logical reasoning**

Persistent, patient, and highly **motivated**

Passion to solve **complex engineering problems**

Analyze and adapt to situations naturally

HERE, YOU WILL ACQUIRE

- Proficiency in programming, coding, and software development.
- Essential skills in system design and architecture that'll empower you to adeptly design efficient and scalable computer systems.
- Exposure in data analysis and machine learning.
- Knowledge of computer networks, protocols, and security measures
- Proficiency in Emerging Technologies.

CAREER LADDER

Functions: Software Developer, Data Scientist, Systems Architect, Network Engineer, Cybersecurity Analyst, Web Developer, Artificial Intelligence/Machine Learning Engineer, Cloud Engineer

Entry-Level Positions	**JUNIOR SOFTWARE DEVELOPER / PROGRAMMER / SOFTWARE ENGINEER / DEVELOPER**
Mid-Level Positions	**SENIOR SOFTWARE ENGINEER, SOFTWARE DEVELOPMENT TEAM LEAD**
Advanced Positions	**SOFTWARE DEVELOPMENT MANAGER, ENGINEERING, MANAGER, PROJECT MANAGER, TEAM LEAD**
Leadership Roles	**DIRECTOR OF ENGINEERING, CHIEF TECHNOLOGY OFFICER (CTO)**
Executive Roles	**VICE PRESIDENT OF ENGINEERING, CHIEF EXECUTIVE OFFICER (CEO)**

THE CSE EXPERIENCE

- Industry supported curriculum
- Tech clubs and societies
- Networking with Industry
- Start-up Incubator
- Internship opportunities
- Hands-on projects and research

RESEARCH SCOPE

- AI & ML
- Cybersecurity
- IoT
- Data Science
- Software engineering
- Programming
- Generative AI

SEATS

INDUSTRY CURATED PROJECTS

A career in cybersecurity offers individuals the opportunity to make a tangible impact by protecting organizations, governments, and individuals from cyber threats. It's a rewarding career choice for those who are passionate about technology and helping people stay safe in the digital realm.

HERE, YOU WILL ACQUIRE

- An understanding of Cyber Offences and Botnets, gain knowledge on tools and methods used in cyber crimes, understand phishing and computer forensics.
- In-depth knowledge of security protocols, encryption techniques and skills in simulating cyber-attacks to identify vulnerabilities in systems.
- Expertise in maintaining data privacy, conducting risk assessments, designing strategic plans for security systems and much more
- An overview of niche and exciting topics like Steganography and digital watermarking, Mobile Device Forensics, Cloud Security, Blockchain Technology, Cyber Security and Cyber Law.

YOU ARE A NATURAL CYBER SECURITY ENGINEER IF YOU HAVE

An urge to **explore how devices interact** and communicate

Meticulous and detail-oriented

Persistent

Strong **ethical responsibility** for technology use

CAREER LADDER

Functions: Chief Information Security Officer
Network Security Architect, Network Security Engineer
Cloud Security Engineer, Bug Bounty Specialist
Application Security Engineer, Information Security Analyst, Ethical Hacker
Digital Forensic Examiner, Penetration Tester

Entry-Level Positions	**JUNIOR SOFTWARE DEVELOPER/PROGRAMMER** (WITH CYBER SECURITY SPECIALIZATION), **CYBER SECURITY SOFTWARE ENGINEER / DEVELOPER**
Mid-Level Positions	**CYBER SECURITY SOFTWARE ENGINEER** **CYBER SECURITY DEVELOPMENT TEAM LEAD**
Advanced Positions	**CYBER SECURITY SOLUTIONS ARCHITECT** **CYBER SECURITY ANALYST/ENGINEER**
Leadership Roles	**DIRECTOR OF CYBER SECURITY ENGINEERING** **CHIEF SECURITY OFFICER (CSO)**
Executive Roles	**VICE PRESIDENT OF TECHNOLOGY** (WITH FOCUS ON CYBERSECURITY) **CHIEF TECHNOLOGY OFFICER (CTO) WITH SPECIALIZATION**

CIT Talent Transformation Hub constantly receives a surmountable demand to fill **high-pay-package national and international positions in Cyber security**

**Jump to Talent Transformation Hub (Page 14-15) to know more about placements*

THE CS(CY) EXPERIENCE

- Renowned AI scientists and researchers as Mentors
- Tech Clubs and Societies
- Research & industry-driven seminars & Conferences
- Incubation and research opportunities
- Internship opportunities in leading partner companies
- Real-time industry projects

RESEARCH SCOPE

- Quantum & Space Security
- Data Privacy
- Criminology and Law
- Security Architecture
- AI Security
- IoT Security
- Cyber security & forensic

Picture yourself as the architect of intelligent systems and algorithms that can learn and evolve! As an AI/ML engineer, your job is to craft algorithms, design models, and train machines to think, predict, and adapt. You're the brain behind systems that power virtual assistants, recommendation engines, and even autonomous vehicles.

GLOBAL SCIENTISTS AS FULL-TIME MENTORS

INDUSTRY CURATED PROJECTS

YOU ARE A NATURAL AI & ML ENGINEER IF YOU HAVE

Strong **analytical skills**

Understand **data patterns**

Approach challenges **systematically**

Excel in **problem-solving**

Although this is a new department, CIT-NC Talent Transformation Hub constantly receives a surmountable demand to fill **high-pay-package national and international positions in Artificial Intelligence & Machine Learning**

HERE, YOU WILL ACQUIRE

- Mastery in programming languages like Python, R, or Julia and more.
- Statistical concepts, methods, handling and pre-processing large datasets, along with algorithms for processing and analysing human language data.
- In-depth knowledge of machine learning algorithms and their applications and familiarity with deep learning frameworks for neural network development.
- Effectively conveying technical concepts to both technical and non-technical stakeholders, and collaborative team work.

CAREER LADDER

Functions: Machine Learning Engineer, Data Scientist AI Research Scientist, Computer Vision Engineer, Natural Language Processing (NLP) Engineer, Robotics Engineer, AI Solutions Architect, Data Engineer, AI Product Manager, AI Ethicist

Entry-Level Positions	JUNIOR AI/ML DEVELOPER MACHINE LEARNING ENGINEER TRAINEE
Mid-Level Positions	SENIOR MACHINE LEARNING ENGINEER AI/ML DEVELOPMENT TEAM LEAD
Advanced Positions	AI/ML SOLUTIONS ARCHITECT/ MACHINE LEARNING RESEARCHER / AI/ML PROJECT MANAGER
Leadership Roles	DIRECTOR OF AI/ML ENGINEERING CHIEF AI OFFICER
Executive Roles	VICE PRESIDENT OF AI/ML ENGINEERING

THE AI & ML EXPERIENCE

- Renowned AI scientists and researchers as professors
- Externally funded Industrial projects
- Research & industry-driven seminars & skill building
- Internship opportunities in leading partner companies
- Real-time industry projects

RESEARCH SCOPE

- Deep Learning and Neural Networks
- Reinforcement Learning
- Natural Language Processing (NLP)
- Explainable AI (XAI)
- AI Ethics and Fairness

COURSE

Industry-level Technical Skill Training. Management skills, personality development and communication skill development programmes.

Opportunities to practice skills through multiple industry projects. Guest lectures and workshops by industry experts.

Alumni Mentorship Programme by CIT Alumni across the world.

My journey has been filled with opportunities, challenges and achievements, thanks to the immense support from my college. A major highlight of my journey so far at CIT NC was the Smart India Hackathon (SIH) 2024, where our team was 1 among only 5 across India to reach the Grand Finale at IIT Jammu in the Cyber Security domain. We worked on "Fuzzing a Large Open-Source Platform – Sumatra PDF Viewer" and secured an internship at NCIIPC, part of NTRO, directly under the Prime Minister's office. CIT NC is one of only 10 colleges in Karnataka to have 2 or more teams in the SIH Grand Finale. The college fully supported and funded our journey.Following this, in July 2024, we competed in Hack for Hire, a national-level hackathon at PESIT, Shivamogga, where we developed a scheduling mechanism for IoT-based industrial automation. Winning First Prize and securing a Pre Placement Offer from Ekathva Innovations was another milestone. CIT NC fosters innovation beyond academics, encouraging real-world problem-solving. I'm grateful for my college's support and excited for what's ahead in my journey

NAVEEN REDDY
III Year CSE (Cyber Security)

My college, with its peaceful campus away from city distractions, provided the perfect environment for focused learning and personal growth. The smaller student community allowed for personalized attention and fostered close interactions with professors and management, enabling deeper and more effective engagement - an essential factor during this critical 4 years of our lives. I can confidently say that the placement training provided at our college by Sudharani Ma'am is among the most comprehensive and best in the state. We have tackled hundreds of coding challenges on every topic, which has greatly helped me navigate the competitive job market with ease. Dr. Manjunath, who leads the placement department, has been a constant source of support and encouragement. I am thrilled to have secured an offer from HashedIn by Deloitte. The selection process included three technical interview rounds, each lasting approximately 50 minutes. These interviews were both challenging and intense. However, thanks to the excellent training provided through our college's placement department, I was able to confidently discuss technical concepts, solve coding problems and clear all rounds. I am deeply grateful to everyone who contributed to this achievement. My college has truly been a place of growth, shaping me both personally and professionally.
